

Medical Record Fees

K.S.A. 65-4971(b) established the maximum fees that medical care providers can charge for reproduction of medical records (non-workers compensation records). By law, these fees are adjusted on January 1 of each year by the Secretary of Labor, "in accordance with the all-items consumer price index published by the United States department of labor."

The all-items Consumer Price Index (CPI) rose from 207.3 in 2007 to 215.3 in 2008. This represents an increase of 3.9 percent. This change is applied to the medical fee cost schedule below.

	<u>January 2008</u>	<u>January 2009</u>
Cost of supplies and labor	\$17.50	\$18.18
First 250 pages	\$ 0.58	\$ 0.60
Additional pages	\$ 0.41	\$ 0.43

The release of the 2009 CPI data is scheduled for January 15, 2010. Please contact us if there are questions or further assistance is needed.
